The ancient Greeks traveled widely by sea and founded colonies in far-flung locations. On the north coast of the Black Sea were a number of such Greek settlements, places where the Greeks made contact with the local Scythian population. Greek goods were traded extensively throughout the region, and many of these often-luxurious articles eventually made their way into tombs.

From its wealth of such Greek finds from the Black Sea, the State Hermitage Museum in St. Petersburg has lent some 175 Greek objects to an exhibition at the J. Paul Getty Museum at the Getty Villa. This richly illustrated catalogue to the exhibition presents nine essays on the archaeology of the northern Black Sea region and its history, culture, and art, including sculpture, pottery, gems, and jewelry. Written by curators at the State Hermitage Museum, *Greeks on the Black Sea* presents an intriguing world at once Greek and barbarian.
