Trans-Dimensional Unified Field Theory George James Ducas

The concept of a First Cause of all reality or God can be arrived at through science, metaphysics, and philosophy. This book establishes unification by defining parameters of equivalency through mathematics with the conclusion that all reality is consciousness. The keys to the universe and description of equivalency are defined. God can be known through works in creation when the true nature of being is understood, truth known, and the universe becomes an analogy of truth. All reality is consciousness established through patterns of hierarchy and symmetry proceeding from God. Action is known by equivalency and love is received in Creation.
