The Last West is an alternate history, noir epic that imagines a world where all progress grinds to a halt in 1945 with the failure of the first test of the atomic bomb. But not just scientific advancement stops—all technological, artistic, and social progress also ceases. The war with Japan continues, unending. And, the one man who knows why this has happened and who has the power to jumpstart the world again must grapple with one of the most important issues of our time: What is the price of progress? And, is he willing to pay it?
