Now available at a new low price as part of Cengage Advantage Books and in two flexible formats--a standard paperbound edition and loose-leaf edition--this best-selling textbook for courses in introductory chemistry allows professors to tailor the order of chapters to accommodate their particular needs. The authors have achieved this modularity not only by carefully writing each topic so it never assumes prior knowledge, but also by including any and all necessary preview or review information needed to learn that topic. New lead author Dr. Mark Cracolice, Director for the Center of Teaching Excellence at the University of Montana and chemical education specialist, has added current and relevant applications and has infused the text with original pedagogical elements. Cracolice has also seamlessly integrated the text with the extensive media-based teaching aids available to create a unified package for this edition.
