Philosophy 2: Further through the Subject (Vol 2)

Philosophy 2: Further through the Subject (Vol 2)

This companion to the highly successful *Philosophy: A Guide through the Subject*, (recently reissued as *Philosophy 1*) is a lively and authoritative guide through important areas of philosophy that are typically studied in the later parts of an undergraduate course. Thirteen extended essays have been specially commissioned, each introducing a major area and giving an accessible and up-to-date account of the main debates. The first seven cover the philosophies of language, psychology, religion, and the natural and social sciences. The second part of the book completes the guide through the history of philosophy begun in the first volume, covering later ancient philosophy, medieval philosophy, Kant, continental philosophy from Hegel, Frege, Russell Wittgenstein, and Indian philosophy.
