Medical Language for Modern Health Care, third Edition, uses a Contextual Learning approach to introduce medical terminology within a healthcare environment. Chapters are broken into lessons that present and define terminology through the context of A & P, pathology, as well as clinical and diagnostic procedures. The text is setup in a way that covers one topic at a time, offering contextual content, tables, and exercises all in one place. Word Analysis and Definition Tables provide a color-coded guide to word parts and combining forms, as well as definitions and pronunciations. Now featuring newly added chapters covering Geriatrics, Oncology, Radiology, and Pharmacology. With unfolding patient case studies and documentation, students are introduced to various roles in the healthcare environment, illustrating the real-life application of medical terminology.
