Methodologies of Embodiment: Inscribing Bodies in Qualitative Research (Routledge Advances in Research Methods)

This volume is dedicated to exploring and exposing the challenges, the possibilities, and the processes of empirical work in embodiment. Grounded in qualitative inquiry in the humanities and social sciences, the chapters describe perspectives and contexts of embodied research, but focus on the methodologies, methods, and analytic frames taken up to grapple with this ever-more theorised aspect of qualitative inquiry. The authors drawn together in this volume share an investment in the ways in which the body inscribes and is inscribed within research that foregrounds the cultural, social, affective, and political discourses that are at the core of how bodies act and are acted upon.
