William Wallace

An Encyclopedia of Everything Men think about, besides Sex, Sports, and Money William Wallace
Some, in the USA at least, would believe that men can be somewhat shallow. This is clearly totally unfair. There is a depth of awareness to the world of men which is simply not appreciated, in today's culture. Some of this is clearly the result of a cultural movement in the USA, which is clearly designed to make light of men's experience. Books such as *Men on Strike: Why Men are Boycotting Marriage, Fatherhood, and the American Dream-and Why It Matters*, by Dr. Helen Smith; *Boys Adrift*, by Dr. Harold Sax; *Boys Adrift: a response to a seminal book*, by Kenneth Hawkins, and *The War on Boys*, by Christina Hoff Sommers, detail this well enough. There is, in fact, a depth, a special quality, to men's thinking, which goes way beyond such shallow issues as sex, sports, and money. It may not be appreciated by today's mass media, yet it is still very much in existence. This book is designed to detail that world, to forever disprove these sexist myths, once and for all. Since the world of men's thinking, outside of this narrow, stereotyped area, is very diverse, chapter headings are included, for easy reference. A clear offering of precisely what men commonly think about, sorted by specific subjects, as chapter headings, in detail, is included. We trust you will find this compilation informative, and useful.
