Digital Qualitative Research Methods (SAGE Benchmarks in Social Research Methods)

The field of digital methods for qualitative research is a rapidly developing one. More and more researchers are researching the social, cultural, political, anthropological and other dimensions of computer-mediated communication (CMC), or using CMC as a means of generating and analysing research data. There is now a proliferating diversity of terms, including digital methods, online methods, virtual ethnography, hypermedia methods, and so forth, that requires clarification and classification. This four-volume set brings together the most important and influential articles that have been published in this area and which enable the reader to understand the implications of digital technology for all aspects and phases of qualitative research design and dissemination.
