## **Online Dating Smarts (An E-Dating Guide): 99 Important Questions To Ask Someone You Meet On The Internet** Lisa McKay

These days meeting a date online is practically the norm. However, while e-dating is common and it's easy to meet someone on an online dating site, it can be **hard to figure out whether you might be compatible with an online interest when you are face to face.**

This little book is not just a primer on how to talk to women or how to talk to men—it gives you 99 questions that will help you talk to anyone that you date online.

**These questions are more than good icebreakers for online dating.** They can help you decide whether it is worth pursuing a more serious relationship with someone you start off e-dating. And, as you get to know this person better, you will also be laying the groundwork for a successful long-term relationship.

## **Questions are organized into five categories:**

- 1. Work and study** (e.g., What are two of your strengths that make you well suited to your job/field of study?)
- 2. Hobbies and interests** (e.g., What would you like to do more of in life, but don't? Why not?)
- 3. Childhood and family** (e.g., What are some things your parents did well as parents?)
- 4. Relationships** (e.g., Think of someone that you greatly respect. What are three things you admire about that person?)
- 5. Tricky questions you really should ask** (e.g., What does a committed relationship look like to you?)

Whether you are an online dating newbie or a seasoned pro, this book can increase your chances of successfully making the leap from e-dating interest to lasting love.

## **This edition also includes two FREE BONUSES**

**Bonus 1: Five Fun Activities To Help Couples Get To Know One Another Better.** These fascinating and in-depth activities will take your relationship to the next level by helping you explore and discuss your personal strengths, personality, approach to conflict resolution, and sense of humor.

**Bonus 2: From Stranger To Lover.** This book was written to help couples in long distance relationships avoid common pitfalls and build a true connection even while they are far apart. Included here, the first four chapters cover the good and bad news about long distance relationships, the dangers of rose-colored glasses, and the importance of boundaries.

## What Other Readers Have Said...

“This book is written by a psychologist who is happily married to someone she met via email, and it shows—it’s one of the best dating books for people who date online that I’ve come across. It’s short, to the point, and gives you plenty of things to talk and think about.” (Michelle W.)

“If you are looking for a real relationship, not a casual date, these are important questions. Too often we jump in with both feet when the person seems nice, and forget to use logic. Six months later we wonder what went wrong or how we misjudged the person... We forgot to ask important questions. This will give you ideas of what you need to know if you are going to date online and then pursue the relationship.” (Angela C.)

This book was really fun to read, and offered some great suggestions on questions that are important to ask, especially when online dating. I've found myself going back to the book several times over the last couple of months, as I've been meeting various people online, and then talking to them on the phone and even meeting in person!” (Joy C.)

“A great guide for those who are e-dating. Packed full of icebreakers that can really help you get to know someone at a deep level.” (Scott D.)
