## **Architectural Graphic Standards 4.0 (Ramsey/Sleeper Architectural Graphic Standards Series)**

American Institute of Architects, Charles George Ramsey, Harold Reeve Sleeper

After 75 years, Architectural Graphic Standards continues to be the "bible" for architects, builders, and engineers. Version 3.0 of the CD-ROM took the print edition to the architect's desktop and provided the text and details in electronic format for use in CAD, word processing, and presentation programs. Version 4.0 continues to provide Architectural Graphic Standards in digital format while improving upon the current functionality.

What's new in Version 4.0:

- \* An improved user interface that allows the user to navigate the CD using familiar and easy-to-use web-browser functions
- \* 100% of the details in CAD-compatible format--15% more than Version 3.0--available in .dwg, .dgn, and .dxf file formats
- \* Easier search methods--Topic Search, Index Search, Key Word Search, and CSI Code Search
- \* Content reorganized according to Unifomat, which more closely follows an architect's workflow
- \* Network Version is ideal for firms with 20+ employees
- \* Compatible with Windows network servers and Windows clients
