Power Of Un Nancy Etchemendy

This fascinating, approachable, and critically-acclaimed sci-fi/fantasy story is blessed with an intelligent and likeable character. The Power of Un was the winner of the 2000 Bram Stoker Award.

Until a week ago, Gib Finney was just a regular guy, shooting spitballs and messing up his science experiments. But when he finds a mysterious device called the Unner, everything changes. Gib discovers that the Unner has the power to erase any and all mistakes. At first, Gib thinks this is better than winning the lottery: he'll never flunk another test or strike out again!

But after a terrible accident, Gib must decide which events of the previous day he must undo to stop the disaster from happening the second and third time around. He soon learns that some things are more worthy of "unning" than others, and some things can't be changed at all. Ultimately, Gib learns the value of life and family in this touching and straight-forward fantasy
